

Training Schedule

2010

Students enrolling without a Private Pilot License (PPL) must start with the Private ground school. Students enrolling who already have a PPL are strongly encouraged to audit the private ground school at no charge before starting the multi-engine

ground school. This will allow you to become familiar with any new Federal Aviation Regulations as well as provide you with an overview of FlightSafety Academy. Commercial ground school is limited to those who hold a PPL and Instrument rating.
